## *2<sup>nd</sup> Annual Conference on Childhood Injury Prevention*

### ***“What’s New?”***

**Tuesday, April 27th, 2010  
8:00 am – 3:45 pm**

**The Children's Hospital at Legacy Emanuel Medical Center  
Lorenzen Auditorium  
301 N. Graham  
Portland, Oregon 97227**

### **Course Description**

For children under the age of 14, unintentional injuries are the leading cause of death and disability in Oregon, and in the nation as a whole. The majority of these cases are preventable when caregivers are equipped with up-to-date education and proper safety equipment. To highlight vital life-saving injury prevention messages, this year's conference brings together a diverse group of professionals dedicated to this mission.

### **Learning Objectives**

- Identify the top 5 prevention messages for each injury risk
- Explain current trends in the incidence of common injuries
- Promote the current most effective prevention strategies
- Describe how developmental stages relate to injury risks

### **Who Should Attend?**

- Anyone involved in teaching families about safety and injury prevention.
- Injury prevention professionals
- Healthcare providers
- Health educators
- Childcare providers
- Emergency responders
- Medical, nursing, and public health students
